At a glance
Let’s get started. We’ll guide you through startup and tell you a bit about your phone’s features.

And when you're ready, customize your phone to match your style with Motorola Shells (sold separately and not available in all countries).

Note: Software updates happen frequently, so your phone may look a little different.

Remove the back cover
Your phone is water resistant,* but it depends on you putting the cover on properly. You may need to remove the cover to insert cards, but be sure to replace it properly to ensure water resistance.

Caution: don’t use tools to remove the cover—doing so may damage your phone.

Put in the cards & power on
Caution: make sure you use the correct size SIM cards, don’t cut the SIM card and don’t use adapters with your SIM cards.

Dual SIM phone settings
To set up a dual SIM phone, insert both SIM cards, turn on your phone and follow the prompts. Then drag down the status bar at the top of the home screen and touch Welcome to your dual SIM.

Power on.
Press and hold Power until the screen lights up.

Put in the SIM and memory cards. With the gold contacts facing down, push in a card.

Micro SIM 1
microSD (optional)

Micro SIM 2

Note: the memory card (microSD) won’t go in as far as the SIM.

Sign in
If you use Gmail™, you already have a Google™ account—if not, you can create an account during setup. Signing in to your Google account lets you use Gmail, touch and hold and type, and more.

Select your language and follow the screen prompts to get started.

Home screen & settings
From the Home screen, you can explore apps, check notifications, speak commands and more.

• Add a shortcut to a home screen page: touch Apps , touch and hold an app, then drag it to your home screen.

• Customize: to change your Wi-Fi, brightness and more, drag the status bar down with two fingers.

Google Play Store
Touch and hold an empty spot to change widgets, wallpaper and more.

Volume
Press the side volume key up or down to select a ringer volume from high to vibrate. Or touch an option:

• All: receive all notifications and alarms.

• Priority: touch to select which interruptions to receive and more. You will always hear alarms.

• None: turn off all sounds and alarms. Override sound settings from other apps. Tap and hold to stay in this mode, or choose indefinitely.

*See your current volume setting.
Set the notifications and go to Home.
Set the volume using the side Volume keys.
Change to vibrate or back to ring.
Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves. These limits are part of comprehensive guidelines and establish permitted levels of radio wave energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. These standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The SAR guideline includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health. SAR values under the guidelines for your device model are listed below:

- Head: 1.25 W/kg
- Body: 1.65 W/kg
- Head LTE B7, WiFi, Bluetooth: 0.794 W/kg
- Head GSM 900MHz, WiFi, Bluetooth: 0.905 W/kg
- Body LTE B7, WiFi: 0.969 W/kg
- Body LTE B7: 1.069 W/kg

Your phone may use an electronic label that provides some regulatory information about your phone. To see the electronic label, touch Apps > Settings > Regulatory information. The electronic label is an image that displays your phone's Regulatory Certification ID, Compliance Statements, and other regulatory information.

Note:
- SAR values in this guide are for reference only. SAR values can vary depending on network conditions, software version, and other factors. Always follow local guidelines and laws regarding radio device usage.
- SAR values are not available for all models. SAR values for your specific model can be found by searching the Motorola product safety information website.

Warning:
- Do not use your phone while driving unless hands-free capability is used.
- Do not use your phone while operating a vehicle, boat, motorcycle, bicycle, or other heavy equipment.
- Do not use your phone while engaging in activities that require your full attention.
- Do not use your phone while cooking or heating food.
- Do not use your phone while swimming or bathing.
- Do not use your phone while operating heavy machinery.
- Do not use your phone when you are tired or have consumed alcohol.
- Do not use your phone while operating a vehicle, boat, motorcycle, bicycle, or other heavy equipment.
- Do not use your phone while engaging in activities that require your full attention.
- Do not use your phone while cooking or heating food.
- Do not use your phone while swimming or bathing.
- Do not use your phone while operating heavy machinery.
- Do not use your phone when you are tired or have consumed alcohol.

For your safety
- When using your phone, always follow local laws and regulations.
- Do not use your phone while operating a vehicle, boat, motorcycle, bicycle, or other heavy equipment.
- Do not use your phone while engaging in activities that require your full attention.
- Do not use your phone while cooking or heating food.
- Do not use your phone while swimming or bathing.
- Do not use your phone while operating heavy machinery.
- Do not use your phone when you are tired or have consumed alcohol.
- Do not use your phone while operating a vehicle, boat, motorcycle, bicycle, or other heavy equipment.
- Do not use your phone while engaging in activities that require your full attention.
- Do not use your phone while cooking or heating food.
- Do not use your phone while swimming or bathing.
- Do not use your phone while operating heavy machinery.
- Do not use your phone when you are tired or have consumed alcohol.

Specific Absorption Rate (SAR)
- Your mobile device meets minimum communication limits of exposure to radio waves: YOUR MOBILE DEVICE MEETS MINISTRY OF COMMUNICATION LIMITS FOR EXPOSURE TO RADIO WAVES.
